EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

Claim 10 has been amended as follows:

-- 10. (Currently Amended) The hydraulic turbine of claim 1 wherein the gas distribution manifold includes baffles for ~~the~~ controlling the volume of oxygen containing gas into the water passageway around the gas distribution manifold. --.

The above change to claim 10 has been made to correct an obvious typographical error. Applicants stated that claim 10 was amended to incorporate the examiner's suggested claim language, but it is clear that claim 10 was amended to include an inadvertent typographical error.

Examiner's Comment

The Applicants' brief description of Soviet Union Patent 1,263,902 is acceptable to meet the requirements of 37 CFR 1.98(a)(3). This reference is listed by the examiner on form PTO-892.
